EXPECTATIONS**

Double Side Tissue Tape

Upgrade from Messy Glues to Clean, Controlled Bonding

Helping artisans and handicraft manufacturers replace messy liquid adhesives with faster, cleaner and more consistent bonding solutions.

Designed to reduce or completely eliminate manual gluing during production.

- Self-adhesive bonding for paper, fabric, wood and leather
- Clean peel-off with no surface residue
- Instant handling strength — no drying time required

Double Side Red Tape

Designed for Real Handicraft Workshop Needs

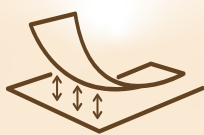

High-strength polyester double-sided tape developed for handicraft applications that require secure, controlled fixing during production and finishing.

Provides reliable adhesion on wood, fabric, leather, veneer, and painted surfaces — ideal for temporary fixing, positioning, layering, masking, and surface protection during crafting, assembly, and inspection.

Strong Adhesion

No Residue

Durable Performance

Double Side Foam Tape

Cushioned Bonding for Handcrafted Products

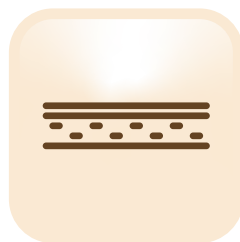

Foam tape provides secure bonding with cushioning support for handicraft applications—ensuring clean assembly and protected surfaces.

- Strong double-side adhesion for secure fixing
- Excellent cushioning to protect delicate and fragile surfaces
- Helps absorb vibration and shock during handling and transport

Gap-Filling Adhesion

Masking Tape

Quality Tapes for Global-Ready Crafts

Masking tape ensures clean edges and surface protection during handicraft painting, polishing, and finishing processes.

- Easy to apply and remove with clean peel-off
- Prevents paint bleed and surface marks
- * Ideal for masking during painting, polishing, coating and finishing

Clean Edge Protection

Surface-Safe Masking

Precise Finish Control

Sustainable Packaging Tape

Seal Today. Save Tomorrow

Eco-friendly, plastic-free kraft tape that delivers strong, reliable sealing while reducing environmental impact.

- Made from biodegradable or recyclable materials
- Strong adhesion with minimal plastic use
- Ideal for eco-conscious packaging applications
